ZW36
Z-Wave Smart Plug
(1 channel)

Specifications:
- Power: 120VAC, 60Hz
- Loading: 10 Amp Max Smart Outlet
- 15 Amp Max Always-On Outlet
- Total (Both Outlets): 15 Amp Max
- Frequency: 908.42MHz
- FCC ID: OXGZW36
- IC: 10460A-ZW36

Introduction
The EVA LOGIK ZW36 is a Z-Wave enabled 15A receptacle designed for most residential lighting and motor applications. It's compatible with LED, halogen, incandescent, xenon, fluorescent and compact fluorescent bulbs. The ZW36 fully works with the Fibaro, Smartthings, Wink hub as well as all other certified Z-Wave controllers.

Plug the light you want to control into the Z-Wave Smart plug controlled outlet.
NOTE: Plug directly into outlet, do not use with extension cords.

Add to Z-Wave Network
Put the Z-wave interface controller into "Add" mode, triple press the Program button (A). It will be included to network. (Once your controller confirmed, refresh the Z-Wave network to optimize performance.)

Remove from Z-Wave Network
Put the Z-Wave interface controller into "Remove" mode, triple press the Program button (A). It will be excluded to network.

To return your switch to factory defaults
Press and hold button 5s while power on.
Note: This should only be used in the event your network's primary controller is missing or otherwise inoperable.

Parameter Settings
1: LED Indicator
Parameter=1, Size=1, Value=0 On when On and Off when Off, Value=1 On when Off and Off when On, Value=2 Always Off, Default =0

2: Auto Turn-Off Timer
Parameter=2, Size=4, Values: 0 - 65535 (M); default 0M

3: Auto Turn-On Timer
Parameter=3, Size=4, Values: 0 - 65535 (M); default 0M

4: Restores state after power failure
Parameter=4, Size=1, Value=0 out put the state after power failure, Value=1 output off, Value=2 output on, Default =0

5: Association (Support 2 group, each group max support 5 devices)
Group 1 lifeline
Group 2 Relay on/off send basic set

Special Settings
Press and hold 5 s on Button (A) = Change LED Status
FCC/IC
This device complies with part 15 of the FCC and Industry Canada license-exempt RSS standard(s). Operation is subjected to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user’s authority to operate the equipment.

– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Consult the dealer or an experienced radio/TV technician for help.

Important note: To comply with the FCC RF exposure compliance requirements, no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user’s authority to operate the device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Please exercise EXTREME CAUTION when using Z-Wave devices to control appliances. Reason being is because the appliance you want to control may be in a separate room and if unintentional behavior occurs (such as device turning on or off - either intentionally via schedules, or unintentionally via network error) this event may lead to a hazardous condition. For these reasons, please note the following suggestions:

1) Do not include Z-Wave devices in Groups or Scenes if they control appliances.
2) Do not use Z-Wave devices to control electric heaters or any other appliances which may present a hazardous condition due to unattended, unintentional, or automatic power control.

OTHER WARNINGS
Risk of Fire
Risk of Electrical Shock
Risk of Burns

MEDICAL EQUIPMENT
Please DO NOT use this switch to control Medical or Life Support equipment. Z-Wave devices should never be used to control the On/Off status of Medical and/or Life Support equipment.
